**SUHNER**  
ADVANCED COMPONENT CREATION

# UWG/UWK 11-R

## The smartest duo

Electronic components are protected from dirt and dust

Guard to protect against accidental start-up

Overload protection

Speed regulation

Speed is corrected under load

Angled head can be adjusted in increments of 90°

Cut-off carbon brushes to protect the motor

Smooth start

High-performance motor with dust guard to ensure a long service life

Spindle lock

Mechanical safety coupling minimizes kickback

Lateral vibration-proof handle, can be fitted on both sides

No kit required for tool change

Protective clip-on guard for cutting wheel Ø125 (optional)

No kit required to adjust protective guard

## UWG 11-R / UWK 11-R

The UWK 11-R and UWG 11-R angle grinders offer everything that even the most demanding user could want to produce the best results.

In addition to their high-performance motors which are protected from dust and many other technical features, these machines are ergonomically designed and their control elements have been positioned perfectly.

The machines have been fitted with quick action lock nuts (SSM) as standard in order to enable tool changes to take place quickly, easily and without kit.

The protective guard does not need to be changed for work involving cutting wheels; an additional clip simply needs to be added to the protective guard.

Another small detail, which is vital for daily work, is that the mounting flange can be fitted on the working spindle.

The smartest duo: optimal results for cutting, grinding, machining, rust removal, brushing or polishing.

## Performance information at a glance

| Type               | Power input | Speed rpm      | Ø mm | Weight | ID no.     | Mat. no.    |
|--------------------|-------------|----------------|------|--------|------------|-------------|
| UWG 11-R 230 V VDE | 1100        | 2,800 - 10,500 | 125  | 2.1 kg | 111 320 01 | 100 054 611 |
| UWG 11-R 230 V SEV | 1100        | 2,800 - 10,500 | 125  | 2.1 kg | 111 320 02 | 100 054 612 |
| UWK 11-R 230 V VDE | 1700        | 2,800 - 11,000 | 125  | 2.5 kg | 111 322 01 | 100 054 614 |
| UWK 11-R 230 V SEV | 1700        | 2,800 - 11,000 | 125  | 2.5 kg | 111 322 02 | 100 054 615 |

## Accessories

|   | Type/purpose  | Ø mm | Weight   | ID no.     | Mat. no.    |

## FLEETcare@Suhner and ABRAcare@Suhner – the comprehensive Suhner rental model.

Your technical expert consultant will provide you with personalized advice.

**FLEETcare@Suhner**  
 The machine package that takes care of everything for you!

- 100% availability
- Fixed costs make it easy to plan ahead
- Repair and preventive maintenance
- Expanding expertise with employee training

**ABRAcare@Suhner**  
 Abrasive inventory optimization for you!

- Automatic, demand-driven order triggering
- Inventory management
- Abrasive cabinet and tools
- Consignment warehouse, no downtime and guaranteed stock availability

## SUHNER@Work

The best place to try out our products is at your workplace!

Benefit from our comprehensive process expertise in grinding and abrasive technology. See what's new and discover more effective and more efficient options. Try our products out on your current projects. Find out how ergonomic tools can boost your productivity.
